 - Windows Application to manage library system and related records
 - Technologies Used: C#, WinForms, ADO.NET, MSSQL Server

Internship

.NET Developer Intern at Softcrowd Technologies

Sept 2023 – Feb 2024

- Worked on a comprehensive Inventory Point of Sale (POS) System for B2B businesses using ASP.NET and C#. Integrated purchase, sale, tax/GST calculations, and reporting functionalities.
- I contributed to the coding process, working on specific modules and functionalities. This hands on experience allowed me to deepen my understanding of ASP.NET C# coding standards, best practices, and the overall architecture of the application
