Internship

.NET Developer Intern at Softcrowd Technologies   Sept 2023 – Feb 2024

- ▫ Worked on a comprehensive Inventory Point of Sale (POS) System for B2B businesses using ASP.NET and C#. Integrated purchase, sale, tax/GST calculations, and reporting functionalities.
- ▫ During my internship, I played a pivotal role in a dynamic project centered around application development, with a primary focus on utilizing ASP.NET C#. Despite having a limited role, my contributions significantly impacted the project's success.
- ▫ I contributed to the coding process, working on specific modules and functionalities. This hands-on experience allowed me to deepen my understanding of ASP.NET C# coding standards, best practices, and the overall architecture of the application.
